PROFILE

Passionate Full Stack Developer with a strong foundation in building scalable, responsive, and user-centric web applications. Proficient in modern technologies including HTML, CSS, JavaScript, React, Node.js, Express, and MongoDB. Skilled in developing seamless front-end experiences and robust back-end architectures. Committed to writing clean, efficient code and delivering high-performance solutions that enhance user experience and meet business goals.

PROJECTS

BOOKSTORE APP

Developed a full-stack book store application using HTML, CSS, JavaScript, React, Node.js, Express, and MongoDB. Enabled dynamic data storage, retrieval, and management through database integration. Ensured responsive design and smooth user interaction across different devices.

CARS PREMIUM

Developed a responsive car-based web application using React, focusing on dynamic user interfaces and smooth navigation. Implemented a component-based architecture to improve performance and reusability, ensuring a fast and user-friendly experience across devices.

EDUINCLUDE

Developed a responsive e-learning platform using HTML, CSS, and JavaScript. Designed an intuitive user interface with modern UI/UX principles, ensuring cross-browser compatibility and seamless performance across devices.

TODO APP

Built a dynamic task management application with features like add, edit, and delete tasks. Utilized JavaScript for real-time updates and efficient state handling, improving usability and functionality.
